

Approaching sixty years of being first for choice, service and value

**Clee Hill Plant is a leading Construction Plant Hire Company and the largest
Compaction and Surface Dressing Hire Company in the UK.**

Having supplied non-operated plant and equipment in construction, civil engineering and road maintenance for approaching 60 years which is a testament to our culture of "Committed to Service in Everything We Do".

We are committed to sustainably managing and developing our business in collaboration with our Customers and Suppliers. We provide excellent value for money by supplying safe, environmentally friendly, modern and reliable equipment, maintained to the highest standards and delivered and collected on time by our own transport fleet.

Our Quality Management Accreditations and Systems are proof of our successfully providing excellent customer service. Our Investors in People Accreditation at Silver Award level is evidence of our working to best practices in leadership, management and the development and training of our highly skilled employees.

Compaction and Associated

Tandem Rollers

MAKE	MODEL	OPERATING WIDTH
BOMAG	BW 80AD/ADS	800 mm
HAMM	HD8	800 mm
BOMAG	BW 100AD	1,000 mm
HAMM	HD10	1,000 mm
BOMAG	BW 120AD	1,200 mm
HAMM	HD12	1,200 mm
BOMAG	BW 135AD	1,300 mm
HAMM	HD13	1,300 mm
BOMAG	BW 138AD	1,380 mm
HAMM	HD14	1,380 mm
BOMAG	BW 141AD	1,500 mm
HAMM	HD70	1,500 mm
BOMAG	BW 154AP	1,500 mm
BOMAG	BW 151AD/161AD/ADCV	1,680 mm
HAMM	HD 80/90	1,680 mm

Clee Hill Plant is probably best known for its large fleet of tandem rollers. Our fleet includes machines with working widths from 800 mm all the way to 1,680 mm making them suitable for jobs of all sizes and complexities.

These jobs can range from small construction sites, footpaths, drives and car parks up to the larger construction sites, highway and airfield construction and maintenance.

All machines are equipped with ROPS roll bars or full ROPS/FOPS glazed cabs, beacons and road lights for site safety.

Clee Hill Plant can supply a variety of optional attachments for machines of all types including cutting wheels, edge compactors, ploughs and grit boxes as well as oscillation as an alternative to vibration. In addition we can also supply 'intelligent roller systems' to ensure a quality job, to learn more turn to page 7.

Equipment for Asphalt

Loading Shovels

Clee Hill Plant runs the largest fleet of JCB 2CX Airmasters and Streetmasters and JCB 3CX Compacts and Highway Masters in the UK. More recently we have introduced the Kubota R070 to our range. These versatile machines are designed for tough jobs on asphalt where they can load and carry, break out, cut and dig. A wide range of buckets and breakers are available.

MAKE	MODEL
JCB	2CX AIRMASTER
JCB	2CX STREETMASTER
JCB	3CX COMPACT
JCB	3CX HIGHWAY MASTER
KUBOTA	RO 70

Deadweight Rollers

Clee Hill Plant's fleet includes deadweight rollers that can be used on asphalt jobs to provide smooth and controllable compaction and accurate cutting of the joint on a newly laid mat.

Deadweight rollers have the option of ballast to suit the machine to the job. Cutting wheels and ploughs are also available.

MAKE	MODEL	SIZE
HAMM	HW90	10-12 TONNES

Pavers

Clee Hill Plant offers an extensive range of mini, midi and large Intelligent Laying Systems to complement our full range of surfacing equipment.

MAKE	MODEL	OPERATING WIDTH
VOGELE	800i	1,200-2,200 MM
VOGELE	1300-3i	1,800-3,400 MM
VOGELE	1303-3i	1,800-3,400 MM
DYNAPAC	SD1800W	1,800-3,500 MM
VOGELE	1803-3i	2,550-5,000 MM
DYNAPAC	SD2500WS	2,550-5,100 MM

Pre Coated Chip Spreaders

All chip spreaders comply with the agreed MPA standard to ensure they meet the highest safety standards.

MAKE	MODEL	OPERATING WIDTH
BSP TEX	M 95	10-15.8 FEET

Compaction and Associated

Self Propelled & Towed Rollers

Clee Hill Plant operate a substantial fleet of self propelled rollers which includes compact 3 tonne machines, versatile mid-weight machines, and powerful 19 and 20 tonne machines capable of tackling the toughest jobs and applications. Smooth and padfoot drums are available to suit all materials and applications as well as intelligent roller systems to ensure a quality job.

SELF PROPELLED ROLLERS		
MAKE	MODEL	WEIGHT
BOMAG	BW 124DH	3 TONNES
HAMM	H5i	5 TONNES
HAMM	H7i	7 TONNES
BOMAG	BW 177DH	7 TONNES
DYNAPAC	CA 3500	12 TONNES
HAMM	H13i	13 TONNES
BOMAG	BW 213DH	13 TONNES
HAMM	H16i	16 TONNES
BOMAG	BW 216DH	16 TONNES
BOMAG	BW 219DH	19 TONNES
DYNAPAC	CA 6000	19 TONNES
HAMM	H20i	20 TONNES

TOWED ROLLERS		
MAKE	DRUM	WEIGHT
BOMAG BW6	SMOOTH	5.9 TONNES
BOMAG BW6S	PADFOOT	6.8 TONNES
VIBROMAX VM651	SMOOTH/PADFOOT	6.3/6.5 TONNES

Equipment for Earthworks

Trench Rollers

Trench rollers are versatile machines ideal for trench work or for compacting soil and stone in confined spaces. Our fleet of trench rollers, from market leading brands, has working widths from 610 to 1,200 mm. All trench rollers are supplied with remote control systems allowing safe use in trenches or on inclines.

MAKE	MODEL	OPERATING WIDTH
BOMAG	BMP 8500	610/850 mm
DYNAPAC	D ONE	610/850 mm
RAMMAX	RW 2900	1,200 mm

Midi & Mini Excavators

Our fleet of mini and midi excavators covers machines from 1.5 to 8 tonnes. Versatile machines, valued for their performance in tight spaces, mini and midi excavators help keep sites productive. A wide range of buckets and breakers are available for all sizes of machine.

MAKE	MODEL	WEIGHT
KUBOTA	KX 015	1.5 TONNES
KUBOTA	U 20	2.3 TONNES
KUBOTA	KX 27	2.7 TONNES
KUBOTA	U 50	5.0 TONNES
KUBOTA	KX 080	8.0 TONNES

Site Dumpers

The Clee Hill fleet includes a wide range of site dumpers from 1 to 10 tonnes payload with a choice of skip configurations. All our machines are supplied with beacons. Road lights and VCAS collision avoidance systems are also available, as an optional extra, for improved safety on-site.

MAKE	PAYLOAD	SKIP
THWAITES	1 TONNE	HIGH LIFT
THWAITES	3 TONNES	STRAIGHT OR SWIVEL
THWAITES	6 TONNES	STRAIGHT OR SWIVEL
THWAITES	9 TONNES	STRAIGHT
WACKER NEUSON	6 TONNES	DV SWIVEL
WACKER NEUSON	9 TONNES	DV SWIVEL
HYDREMA	10 TONNES	REAR DUMP

Other Equipment

Surface Dressing & Specialist Treatments

Clee Hill Plant's extensive fleet of pneumatic tyred rollers includes machines in a range from 4 to 28 tonnes. The larger machine's operating weight to the application. Due to their excellent kneading effect, pneumatic tyred rollers achieve an excellent sealing of the surface. Pneumatic tyred rollers are used on applications such as highway and airfield maintenance, the compaction of cementitious materials and surface dressing.

PNEUMATIC TYRED ROLLERS		
MAKE	MODEL	WEIGHT
HAMM	HD14TT	4 TONNES
BOMAG	BW 24RH	9-24 TONNES
BOMAG	BW 27RH	9-27 TONNES
BOMAG	BW 28RH	8-28 TONNES

CHIP SPREADERS		
MAKE	MODEL	WIDTH
PHOENIX	MK10 E	2,500-4,100 MM
PHOENIX	MK12 E	2,750-4,900 MM
PHOENIX	MK14 E	2,500-4,100 MM

Surface dressing is an established highway maintenance technique. It involves spraying an emulsion binder on to an existing road surface, the laying of aggregate chippings and the compaction of the chippings and offers a variable width to suit the road conditions. Pneumatic tyred rollers are used to compact other highly specialist surfaces.

Welfare Units

MAKE	MODEL	SIZE
BOSS CABINS	COMFORT SPACE ECO+	7 MAN
SECURI CABIN	ECO 7	7 MAN
BOSS CABINS	BIG SPACE + OFFICE ECO+	10 MAN
BOSS CABIN	CANTEEN OFFICE ECO HYBRID	12 MAN

Tower Lights

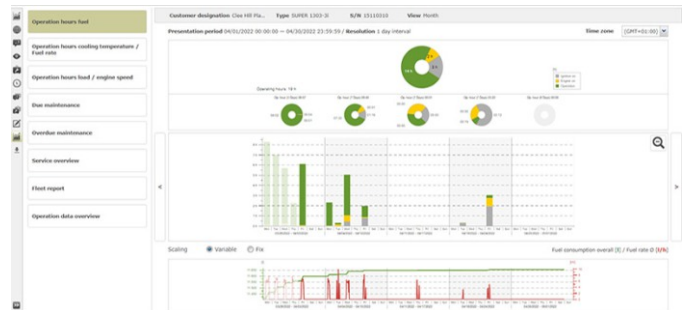

MAKE	MODEL	LIGHTS
SMC	TL 90 LED	5 X 240 W LED
SMC	TL 90 EVOLVE	4 X 320 W LED

Telematics and Intelligent Roller Systems

Telematics

Managed centrally and can be shared with our customers, with reporting that includes, Fuel usage, idle time, hours used and Utilisation of machines.

This allows customers to have full visibility of performance and helps drive efficient working.

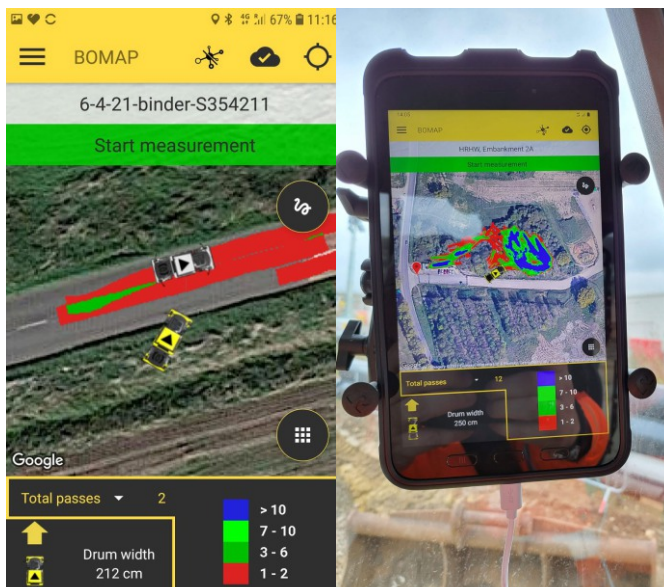

Intelligent Roller Systems - Asphalt

The system can also use GPS data, from one or more machines, to enable the location to be stored electronically together with the asphalt temperature and number of passes for future reference.

The system is easily fitted to rollers providing a level of efficiency and functionality that transforms the productivity and assurance of the compaction process in critical applications

Intelligent Roller Systems- Earthworks

The operator can view compaction progress, pass counts with optional display and recording of the compacted soil stiffness on an easy-to-use colour display through a tablet.

Nationwide coverage

The right machine,
in the right place, at the right time

Across the UK Clee Hill's plant and equipment, large and small, can be seen working on construction sites, civil engineering projects and the UK's extensive road network safely and reliably. As we approach our 60th year we have invested heavily in the latest market leading equipment, staff training and local on-site support which have all helped to establish Clee Hill Plant as a valued supplier to many of the largest construction and civil engineering companies in the UK.

Today, Clee Hill Plant has a nationwide network of depots providing local sales and service support, a fleet of over 2,500 machines and an experienced, qualified and enthusiastic team of approaching 200 employees who are fully committed to maintaining our reputation our reputation for delivering first class customer service.

By operating our own fleet of delivery vehicles we are able to plan and execute delivery of the right machine to the right place at the right time and our own experienced team of engineers keeps our machines in peak condition ensuring safety, performance and reliability.

To find out more about how Clee Hill can help you with your next project contact your local depot.
